PROFESSIONAL SUMMARY

Full Stack MERN Developer with practical experience building scalable web applications from scratch. Specialized in backend development using **Node.js**, **Nest.js**, **TypeScript**, and **MongoDB**, with solid frontend experience in **React.js** and **Next.js**. Skilled in designing secure REST APIs, database schema modeling, authentication systems, and performance optimization. Committed to writing clean, maintainable code and delivering reliable solutions in fast-paced development environments.

TECHNICAL SKILLS

- Language:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL.
- Frontend:** React.js, Next.js, Redux, Redux Toolkit, jQuery, Tailwind CSS, Bootstrap, Framer Motion
- Backend:** Node.js, Express.js, Nest.js, RESTful APIs, JWT, WebSocket, GraphQL, Socket.io
- Databases:** MongoDB, PostgreSQL, Redis, Mongoose ODM, Prisma ORM
- Cloud & DevOps:** AWS (Lambda, API Gateway, EC2, S3), Docker, Nginx, CI/CD, GitHub Actions, Vercel, Render, PM2, Linux/Bash.
- Testing:** Jest, Playwright, Postman, Supertest.
- Tools:** Git, Swagger, Figma, Adobe Photoshop, Vite, VS Code, Jira, Notion, ESLint, Prettier, npm, yarn, pnpm.
- Architecture & Concepts:** MVC, SOLID Principles, OOP, Design Patterns, Agile/Scrum, System Design, API Rate Limiting, Load Balancing, Data Structures & Algorithms

EXPERIENCE

Full Stack Developer Intern | G-Tec Education, Irinjalakuda

09/2025 – 05/2026

- Engineered and deployed MERN stack applications, reducing load times by 30% through lazy loading and component optimization.
- Enforced JWT authentication and role-based access control for 140+ REST APIs using Node.js, Express.js, Nest.js, and TypeScript, ensuring zero unauthorized access.
- Designed and refined MongoDB and PostgreSQL database schemas with indexing strategies and query optimization, improving query performance by 40%.

PROJECTS

React-ts-Portfolio-Website Frontend Website	GitHub Repo
- Developed an SEO-optimized React.js portfolio with server-side rendering and metadata optimization, improving load speed by 35%. - Integrated GitHub & LeetCode APIs to dynamically display real-time stats, increasing user engagement by 45%. - Applied image optimization and code splitting techniques using Next.js built-in tools, reducing bundle size by 30%.	
node-rest-api-typescript Backend	GitHub Repo
- Engineered a secure Node.js REST API with TypeScript, implementing JWT authentication and MongoDB for scalable data management. - Dockerized the application with Redis caching integration, reducing response time and improving overall performance. - Architected a clean, maintainable codebase using modern TypeScript tooling, ensuring scalability and long-term code quality.	
RoyalKulture-E-Commerce Platform Full Stack Website	GitHub Repo
- Built a full-stack e-commerce application with core cart, checkout, and order management features. - Engineered efficient MongoDB queries through indexing and aggregation pipelines, reducing page load time by 35%. - Achieved 95% mobile responsiveness across all devices using Bootstrap 5. - Designed an admin dashboard with real-time sales analytics and data visualization using Chart.js.	

EDUCATION

Bachelor of Technology (Btech)	07/2021 - 01/2025
IES College Of Engineering chittilappilly Thrissur Computer Science	
Senior Secondary (Plus Two)	06/2017 –03/2019
Santhinikethan public School Irinjalakuda Computer Science
